May 23, 2008

Dear Gary:

It was nice having lunch with you last Thursday. I always appreciate it very much. It was exciting to share the results we had last year with the STAR program. As I mentioned at lunch, the savings on our Worker's Comp insurance for last year was around \$83,000. This amount gives us a 36% savings. Our auditors haven't completed the audit, but we are close to these figures.

Again, I want to thank everyone at National Safety for helping Destiny achieve these outstanding savings in only two years. Our president, Bill Edwards, is very pleased with the results.

We constantly remind our employees of the importance of safety. Our daily reminders have definitely decreased our accidents and have made our employees more aware of safety.

I would be happy to share our success story with anyone interested in the STAR program.

Best regards,

Tonya Roberts
HR Director
